Its easy to put together with the straight forward directions; sturdy, and super functional. Love that you can alternate from a sitting to standing desk. The modern industrial vibe makes it a win to go with any decor style youve got going in your house, too. Super happy with this purchase!LikesColorSizeInstructionsQualityValue for moneyHelpful?This desk is perfect to do homework and to eat on also, heh! Moreover, I will state that for added stability you may want to consider adding an 'L' bracket on the back and then fastening the unit to the wall. :-))LikesColorValue for moneySizeSturdinessInstructionsHelpful?I was pleasantly surprised with this desk. I love the affordability and the fact that it is big enough for both my monitors, easy to put together and fairly sturdy. Of course it wobbles a tiny bit but that's to be expected with it not being a large desk with large legs and sides. It's great for small spaces, kids and a basic work desk for me. I've had it for about a month now and I couldn't be happier with it. Even looks pretty good. I'm so pleased with it that I'm buying two more to place in my son's rooms for them because they both liked it also. By the way, my 13 year old son put this together for me because I was busy. It took him about 20 minutes. It would probably typically take someone maybe 10 minutes to put together.Helpful?Very sturdy , I thought I was going to return it because of the 2 screens. It def doesn't fit both on the same side of desk but I made it work. If you're only using for a laptop or one screen it's probably better. Super easy to assemble and I love the designs of the side shelves.Helpful?Nice little desk, perfect for what I needed. I bought 2 and Im glad I did. The price was great and its very cuteLikesMaterialFitHolesAppearanceConstructionHelpful?I just bought this desk a few days ago and I love it! It's affordable and stylish! It's not the sturdiest desk in the world but it can hold up to 50 lbs which is more than I need it for! It was also super easy to build; it took me less than an hour!Helpful?I like this little Mainstays Side Storage Desk - I took the dinette booth out of my RV and replace it with this - it looks great!Helpful?It's beautiful after assembled and sturdy. Directions were a little misleading on one step. Chips easily on wood when computer chair bumped against it. Overall I like this desk price is decent.Helpful?A very cute, simple desk. Serves its purpose. The only complaint, and it is a significant one, is that there is no stability at all. The slightest bump makes it feel like it will fall apart. Every beverage ever placed on it has spilled.LikesWoodHolesAppearanceFinishStyleDislikesHelpful? First time leaving a review for this desk. I've been having this desk for over a month now. I was struggling looking for a decent desk with a decent price. If you're on a budget and looking for a cheap desk, this will be handy. This is my first time setting up this desk and it was a bit difficult so I suggested having someone to help you out. There's one pole on the metal part doesn't have screws inside so I can't screw this one pole to attached. The desk is wobbly whenever I write my journal so I recommend put some stuff on the desk so it won't wobble a lot. The corners are pointy watch out on that. Do I recommend this? Yes, you get what you pay for.Helpful?
